

Ciconia

CICONIA ROSÉ 2025

HARVEST REPORT

Although production was low, the 2025 harvest was of exceptional quality at Casa Relvas. Spring was rainy and there was significant pressure from mildew. The vines were comfortable in terms of water requirements during the early growing season, developing excellent foliage. The mild, dry summer allowed the plants to reach maturity in excellent condition. During ripening, temperatures were mild with no heat spikes, which allowed the grapes to ripen perfectly and produce wines with great intensity and character.

HARVEST

2025

GRAPE VARIETIES

Aragonez, Touriga Nacional, Syrah, among others

CLASSIFICATION

IG Alentejano

YIELD (TON/HA)

10

SOIL

Clay and Schist

VINIFICATION

Mechanical Harvested during the night. Total Destemming. Maceration before fermentation of 8h. Pressed under vacuum, fermentation under controlled temperature (15° to 18°) in stainless steel vats during 10 to 15 days.

AGEING

in stainless steel vats

TASTING NOTES

COLOR: Rose petal pink colour

AROMA: Fresh and fruity, with lovely hints of strawberry and white flowers

PALATE: Excellent acidity, also displaying an elegant structure and a conspicuous presence of red fruit aromas. It has a long and juicy finish
