Brand: João Pato_aka_Duckman

The original João Pato ("Pato", the family name = Duck) lived between 1920 to 1984 and was reborn in 2018 as Duckman spirit. This spirit is not easy to define, it is a blend of our ancestors' heritage with an intergenerational spirit of looking at the world in general and at wine in particular. It has also been defined as an ART-isanal Wine Project that aims to raise questions about the customs and trends associated with the world... also the wine world.

Duckman wants to support Bairadian artists, in their most diverse areas: photography, music, writing... everything that can be considered art and make this wines a vehicle to take Bairradina art to the deepest corners of the world. Duckman also does not forget his people, neighbors, friends who help us to have a more meaningful life, making handouts, fabric sculptures, etc...

Duckman is all of us who embrace this spirit of building a better world together!

The wines presented here are the result of the exclusive use of grapes produced by us, from indigenous grape varieties (Bairrada region), of small editions and reveal unexpected sensations that arouse questions! We minimize the use of sulfites, wines are not always filtered and are vegan (we do not use any animal products in the wine making process).
