

Ciconia

CICONIA ROSÉ 2022

HARVEST REPORT

2022 was one of the most challenging vintages at Casa Relvas. The winter was cold and very dry. Spring was rainy with average mildew pressure, the vines were very comfortable with water needs during the beginning of the growing season. In summer, temperatures were quite high, and there was no rain from May until September. The warmer days brought high Cicadella pressure and some hard to manage sunburn in some vineyards in the warmer parts of the region! Ripening was quite slow, promising a very concentrated vintage.
